CRAFTED FOR COMFORT

The clean, modern interior with intuitive controls plays a large role in delivering a superior driving experience.

The new integrated center console offers open stowage, 2 USB ports, a 12-volt power socket, and adjustable cup holders, for improved storage capacity and greater convenience.

A sporty 3-spoke steering wheel perfectly complements the new streamlined interior.

Can't agree on the perfect temperature? No problem. Dual-zone climate control allows you and your front seat passenger to choose individual temperature settings.

Illuminate the interior with color. Bring light to front and rear footwells, and cupholders.

Get a clearer view of what's behind you. Simply turn on the heated exterior mirrors.

EFFORTLESS CONTROL

The New Focus does more than make life easier. It brings the world to you.

Just say the word. SYNC™2 does the rest. Keep your hands on the wheel and use simple voice commands to make calls, play music, and even have text messages read aloud.

That's just the beginning. SYNC™2 also includes an upgraded 8-inch color

touchscreen, 2 USB ports, and Bluetooth® connectivity.

Younger drivers in the family? MyKey® lets you tailor and limit car settings-like top speed and audio volume.

DESIGNED AROUND YOU

Cameras and sensors constantly scan the driving environment, and even enable the New Focus to park itself for you.

Enhanced Active Park Assist helps you find a parking space. Then it steers you in. Then it steers you out. All you have to do is operate the accelerator, brake and gears. You're automatically guided in for a perfect park every time.

The New Focus knows when you're on an incline. Take your foot off the brake and Hill Launch Assist holds the brakes for a few seconds. Step on the accelerator, and you're away.

The freedom of the open road is even better with Cruise Control. At the same time, the New Focus' Speed Limiter helps you stay within speed limits.

Fumbling for your keys is a thing of the past. With your key fob on you, you can open the door with a touch of the handle. Once inside, put your foot on the brake, press the START/STOP button, and you're good to go.

SERIOUSLY FUN TO DRIVE

The New Focus combines our latest engine and transmission technology to deliver a dynamic driving experience.

Why choose between power and fuel economy when you can have both?

The New Focus' EcoBoost engine gives you the performance you want, with fuel economy you'll love.

Enjoy a smooth, ultra-responsive ride with an all-new 6-speed automatic transmission.

Connect to the road like never before. The New Focus' sports suspension delivers great handling for an exhilarating drive, while Electric Power-Assisted Steering improves steering performance.

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Optional Fitment/Pack', etc., you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. **Note.** Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. **Note.** This brochure contains both original Ford accessories as well as a range of carefully selected products from our suppliers, which are featured under their own brands. All supplier branded products are subject to warranty terms defined by the relevant suppliers and do not lie within the responsibility of Ford. **Note.** The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company is under licence. Other trademarks and trade names are those of their respective owners.

⁹Uses sensors. ¹Designed to operate at speeds above 10 km/h. ¹¹Designed to operate at speeds over 65 km/h on multi-lane roads with clearly visible lane markings. *Ford Emergency Assistance operates in over 30 European countries. This feature works when paired with a compatible mobile phone that is with you when the airbag is deployed or the fuel pump is shut off.

Text messaging feature not available in all countries. See your local Ford website for latest information on both. **Note The Bluetooth® trademark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company Limited and its associated companies is under license. Other trademarks and trade names are those of their respective owners.

Note Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.
