New Renault KOLEOS

KOLEOS

Sculpted design

With its assertive silhouette, muscular shoulders, imposing front grille, the new KOLEOS wins you over from the first glance with its athletic power. The new KOLEOS is an SUV which offers raised ground clearance, high skid plates on the bumper, and 19-inch* wheel rims. Its signature lighting leaves an impression. Its assertive design pushes the boundaries and expresses itself with a bold style.

*Available in Koleos Signature only.

Invitation to well-being

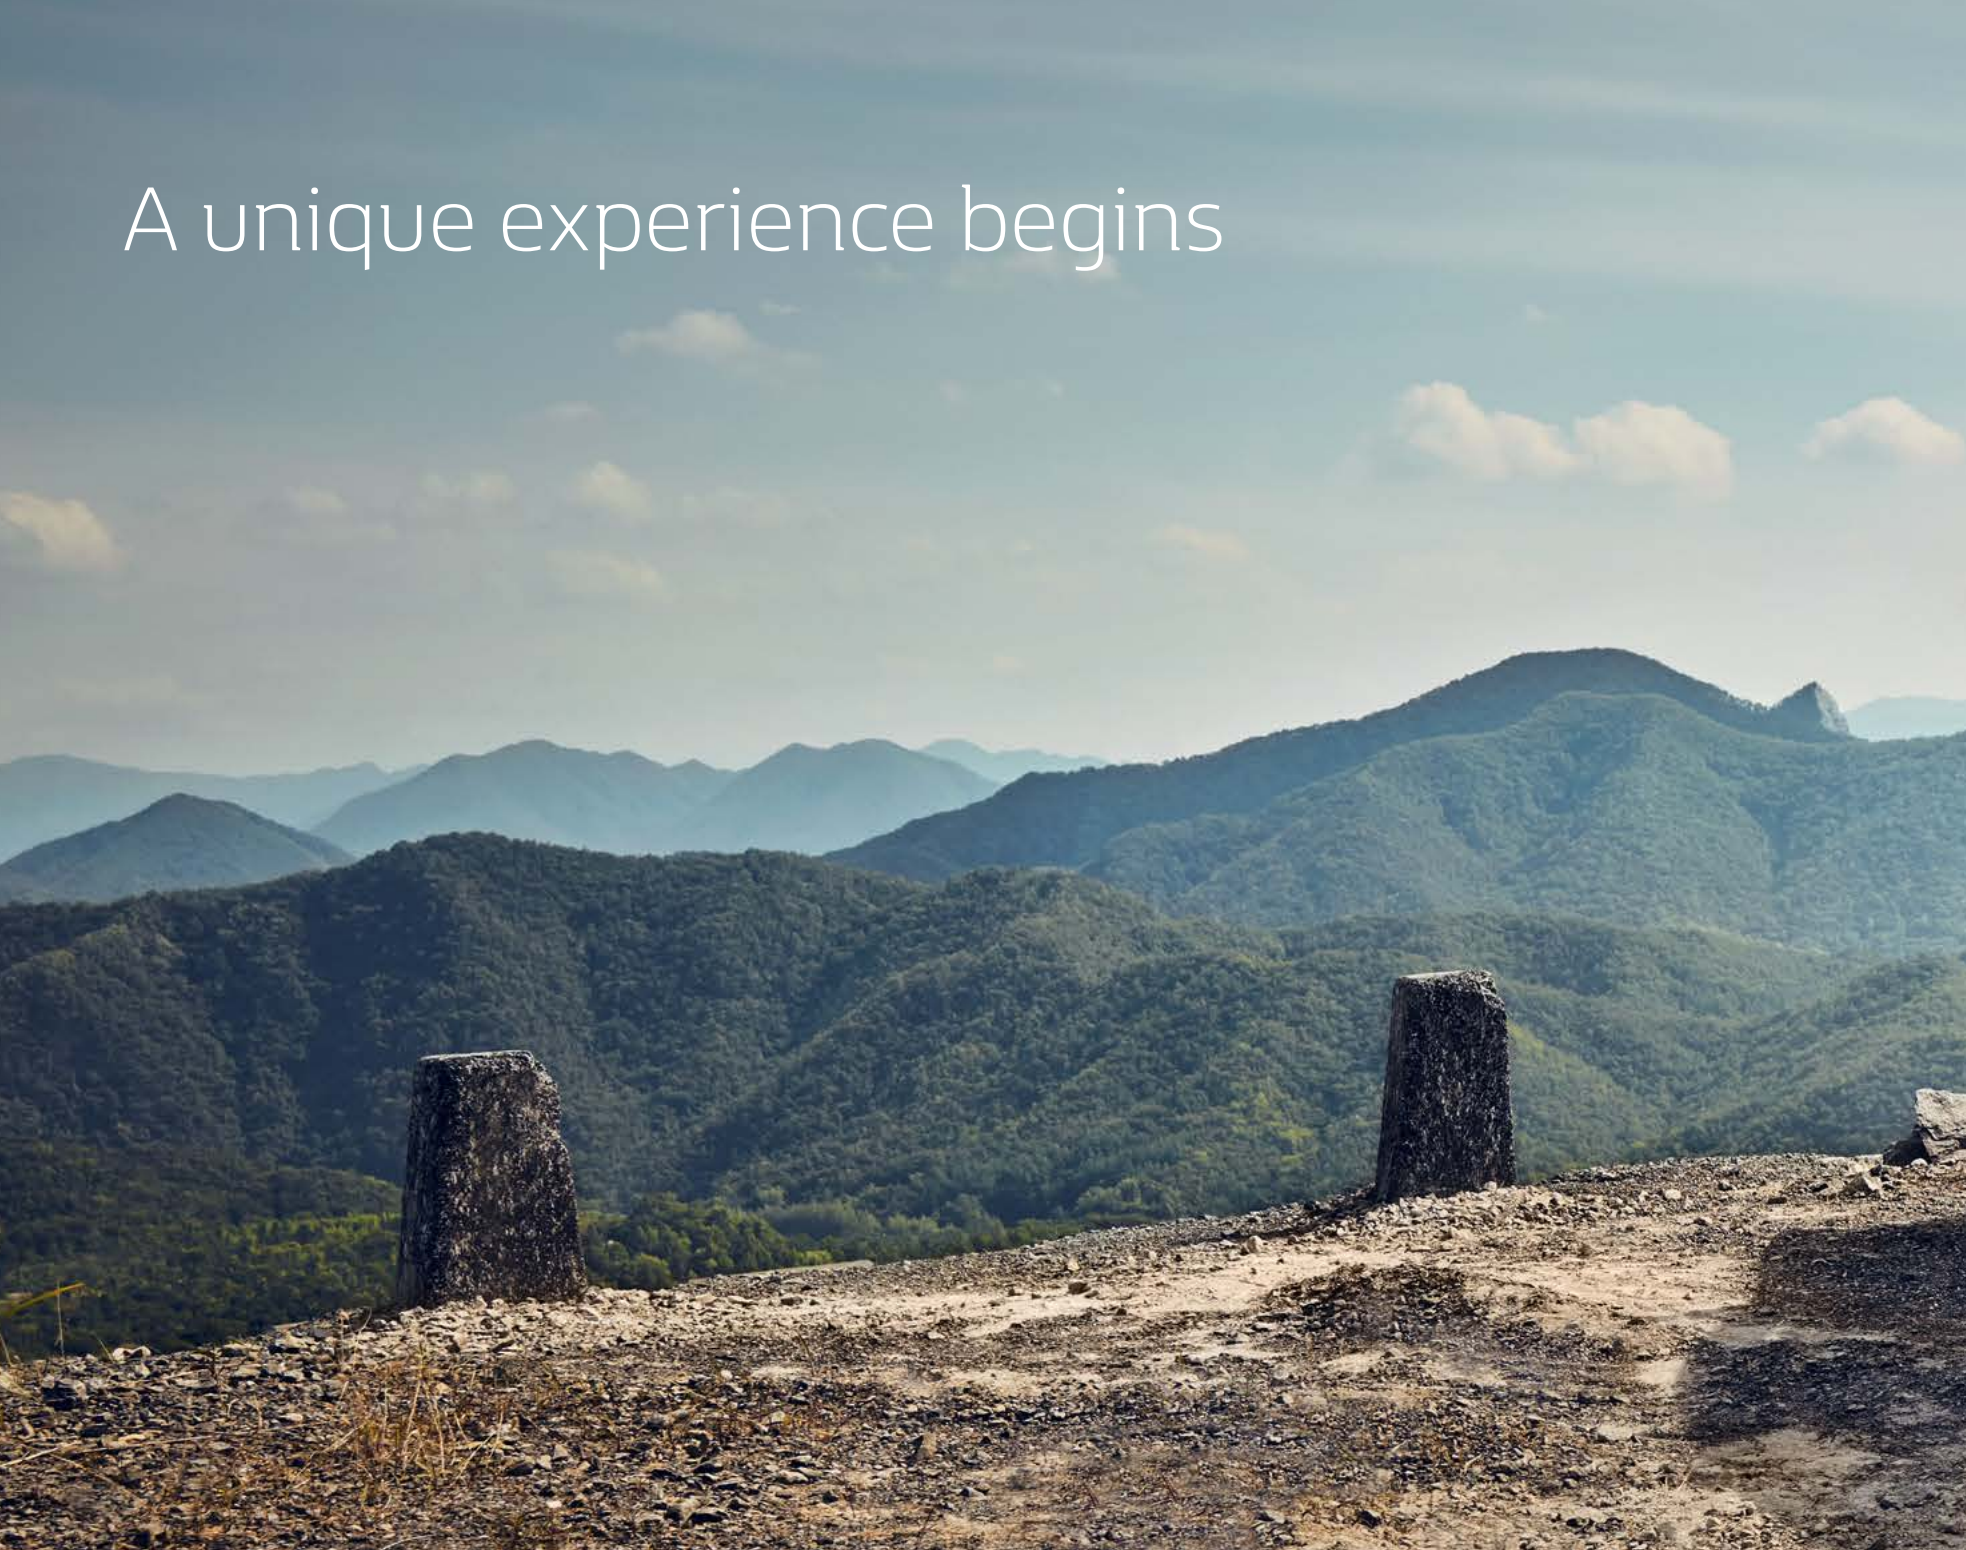

Refinement is in the details. The design and choice of materials for the new KOLEOS are carefully selected exuding total luxury.

The inviting and enveloping seating position is one of the top in this category. The overstitched leather, satin finish of the chrome inserts and immaculate trim of the doors provide a level of comfort, worthy of a premium SUV.

The KOLEOS's interior ambiance features five lighting colour accents that illuminate the centre console, TFT screen, front and rear door panels.

A unique experience begins

A new vision of comfort

The new KOLEOS brings comfort to all of its occupants. From offering you and your passengers a generous amount of legroom, compartment just for keeping your drinks cold.

At the rear, passengers enjoy generous legroom and a reclining bench seat ideal for long journeys.

Design your personal home screen by choosing the size and position of the maps, radio, favourite contacts, navigation and more. It is also compatible with Apple CarPlay™ and Android Auto™ that allows access to selected smartphone apps from the 8.7-inch portrait R-LINK2 touchscreen multimedia system.

Benefit from performance

The new KOLEOS is fitted with a 2.5L engine that generates maximum power of 171 PS at 6,000 rpm and 226 Nm of torque at 4,400 rpm. You'll be delighted by its quiet in-cabin volume and the feeling you get with rapid acceleration, responsiveness and fluidity. It is perfect for drivers who expect their vehicle to not only be economical but enjoyable to drive as well.

X-Tronic CVT automatic transmission offers fluid, responsive driving without any interruption of torque. It adjusts continuously while maintaining optimal engine speed and also simulate gear shifts, producing even more powerful acceleration. With a wider gear ratio, it delivers excellent fuel economy, quieter driving at low speeds and stronger acceleration at high revolutions.

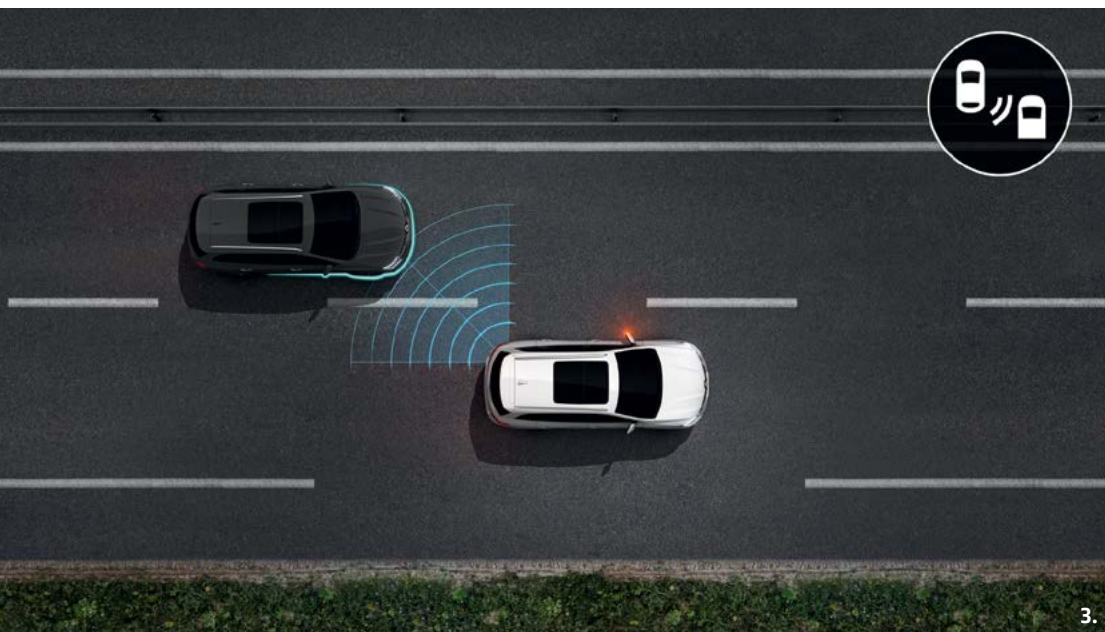

1.

2.

3.

The art of making life easy

The new KOLEOS makes daily life easier. Have you got your hands full? To open or close the boot, swipe your foot underneath the rear bumper.

It understands the art of gaining space: thanks to the Easy Folding System (1 & 2), the rear seats vanish instantly, one by one or all together, according to your needs, to form a flat floor.

With the blind spot warning system (3), an indicator light located on each of your door mirrors will warn you when a vehicle enters your blind spot.

*New European Driving Cycle (NEDC). Fuel consumption are certified using a standard, regulated method. Actual fuel consumption may vary.
 **Bluetooth compatibility may vary depending on phone.
 ***Compatibility: Android phones running Android 5.0 (Lollipop) or newer versions and iPhone 5 with iOS7.1 or newer versions. Connecting a smartphone to access Android Auto™ and Apple CarPlay™ should only be done when the vehicle is safely parked, not operated while driving. Drivers should only use the system when it is safe to do so and in compliance with the requirements of The Malaysia Road Transport Act 1987. Drivers should be aware of the potential of hands-free technology to distract a driver’s attention from the road, preventing them from having full control of the vehicle.
